

High-calibre leaders appointed to the Génome Québec Board of Directors

Montréal, September 26, 2017 — The Chairman of the Génome Québec Board, Martin Godbout, is proud to announce the appointment of five new board members to its Board of Directors:

- **Isabelle Bouffard, B. Sc.**
Director, Research and Agricultural Policy Department, Union des producteurs agricoles
- **Jean-François Ethier, M.D., CM, PhD, FRCPC**
Clinical Research and Assistant Professor, Department of Medicine, Université de Sherbrooke
- **Paul Lepage, B. Eng., MBA, Dr h.c.**
President, TELUS Health and Payment Solutions and Chairman of the Board, TELUS Ventures
- **Sylvain Moineau, Ph D, MSRC**
Professor, Department of Biochemistry, Microbiology and Bio-informatics, Université Laval
- **Jennifer Stoddart, O.C., Ad. É.**
Invited Scholar, Centre of Genomics and Policy, McGill University

Recognized for their extensive experience and their professionalism in sectors such as agricultural economics, information technology, communications, medical research, life sciences and public policies on privacy, the new board members will contribute to the strategic development and integration of genomics among multiple end users, while supporting Génome Québec in its efforts to drive the economic development of Québec.

“The exceptional individuals who have joined our Board of Directors will help us maximize the potential of genomics research and rise to the challenge of its integration for the public good. Through diverse experiences and innovative visions, we are moving forward with our agenda of consolidating Génome Québec’s position in our areas of interest, which are health, agrifood, forestry and the environment,” explained Martin Godbout.

“It will be a tremendous honour to work with such highly capable individuals in the coming years. Our management team will be able to draw on their rich expertise combined with that of our existing board members,” explained Daniel Coderre, President and CEO of Génome Québec.

About Génome Québec

Génome Québec is an economic development organization that contributes to strengthening the competitiveness of the genomics innovation system in order to maximize its socioeconomic impact in Québec. It does so by funding major research initiatives in genomics and putting in place the tools necessary for scientific and strategic development in the field.

The funds invested by Génome Québec are provided by the ministère de l'Économie, de la Science et de l'Innovation du Québec (MESI), the Government of Canada, through Genome Canada, and private partners.
